**Aspire to Give<sup>SM</sup> is the Resource Every Donor Needs to Give Wisely**  
*Guidance on making smarter and more effective financial giving choices*

AUBURN, AL, April 2018. *Aspire to Give*<sup>SM</sup> was created to educate donors and grantors on making smart and effective financial giving choices, and to empower them to do so. Donors and grantors are moved by philanthropic passion, but often find themselves not knowing what, when, how, or how much to give. *Aspire to Give*<sup>SM</sup> helps donors achieve their philanthropic goals by serving as a resource for their giving strategy. *Aspire to Give*<sup>SM</sup> serves donors by helping them understand the process of solving social challenges through giving, with a focus on their local community.

“In the course of helping others financially navigate into and through retirement, my clients and mentors inspired me by their generosity, caring, and desire to make a difference,” says founder, Greg Doepke. “I also realized that there was a real need in the charitable financial giving landscape: while there are so many worthwhile causes and organizations always asking for money, there is so little guidance for donors in the giving of money! I founded *Aspire to Give*<sup>SM</sup> to fill this need. As a servant leader, I realized the need to educate donors and grantors so that they can make a greater difference through their financial giving.”

*Aspire to Give*<sup>SM</sup> educates donors about the various donation avenues available to them, and introduces them to the latest philanthropic tools and techniques. *Aspire to Give*<sup>SM</sup> serves as a bridge to the collaborative engagement amongst all community stakeholders— individuals, businesses, nonprofits, education, faith communities, and government. A priority for *Aspire to Give*<sup>SM</sup> is the nurturing, promoting and growing of social entrepreneurship within local communities. **About Greg Doepke**

After working as a wealth advisor and serving nonprofits for over 20 years, Greg Doepke, founder, felt that there was a missing link between donors and their financial giving choices. The fast-changing evolution of philanthropic giving, and the growing need for education for both donors and grantors to apply new leading-edge philanthropic tools and techniques prompted Doepke to create *Aspire to Give*<sup>SM</sup>. *Aspire to Give*<sup>SM</sup> discovers donors' goals and educates them by serving as a resource for their giving strategy.
